MAL DUNN
ASSOCIATES, INC.

The Power of the Name.

List Management Sales and Service

At MDA, we routinely double our clients' list rental revenue in less than 18 months.

Mal Dunn Associates has a proven approach to list management: partner with the list owner and maximize their revenues. To do this, we have developed a variety of tools that are unique to the industry.

We take a new business plan approach to each and every client, every year, constantly creating new avenues to develop and market your list product to increase revenue in an ever-changing environment.

Our modelers, databases, marketing departments and analysts enable us to serve our clients in ways that our competition hasn't even thought of.

After 32 years, we have developed a fully integrated approach to the sales and marketing of a list that is unequalled in the industry.

You haven't explored the real possibilities of list management until you've spoken with Mal Dunn Associates.

**It takes special skills.
This is how we do it:**

Position your list rental products.

We research and conduct a thoroughly detailed analysis of competitive list products to properly position your file for maximum revenue opportunities.

Dedicate a knowledgeable and aggressive specialized sales team.

Headed by specialists in your market, we identify and aggressively sell your list to the optimum revenue opportunities in both conventional and non-conventional markets.

Work with you to leverage existing products and develop new ones.

We think creatively to find solutions and seek out opportunities that other companies often ignore. We use our unique in-house database resources to develop more list products than any other list manager in the industry.

Provide first-class customer service.

We are driven by your needs. We provide same day order processing. Our experienced staff anticipates and resolves issues. Diligent oversight and process redundancies ensure the highest level of accuracy.

The Power of the name.

List Brokerage

We are customer acquisition specialists.

We use exclusive technology, creative research and 30 years of experience to bring you the best possible list selections for maximum results.

The MDA brokerage team is comprised of experts in all types of direct marketing and interactive media. We work with some of the industry's largest consumer and business marketers. We become a strategic extension of your marketing department, providing planning, research, price negotiation and business analysis to your customer acquisition campaigns. For your interactive marketing initiatives, we have strategic partnerships with many vendors affording us the opportunity to present unique CPL, CPA, and CPM deals to you at very competitive prices. Using the most advanced technology, we ensure that our clients are optimizing their marketing and prospecting data strategies, reducing the costs of customer acquisition.

Database Products and Services

Maximize Revenue, Improve Profitability, Gain Marketshare.

The better the data, the better the results.

We start with the best data repositories and apply analytical tools and segmentation strategies to define the consumers you want to reach. The MDA Database and Analytics Division provides superior database and analytical methodologies providing a wealth of information that you can use to communicate with individual customers and influence their behavior. When coupled with the vast purchase and demographic data repositories of MDA, you can achieve new levels of marketing profitability that remain surprisingly cost effective.

We understand the nuances of data use to help you fine-tune your targeting criteria.

We give you the power to use data to create targeted marketing campaigns that increase sales, response rates, retention, and ultimately, profits. By integrating the latest technology with our database marketing expertise, we can deliver results you won't find anywhere else. Whether you need to connect with prospects, identify your best customers, reactivate old customers, understand where your customers are in their purchasing cycle, or explore new cross-selling opportunities, we have the data and the know-how to help. We combine the power of data with our proprietary modeling techniques to help you improve marketing efficiency and increase market share.

Consumer Database Products

Marketshare

The largest cooperative public prospecting database of direct mail response generated mail order buyers. Marketshare consists of over 98 million consumers.

Consumer Passion Index (CPI)

A fresh new source of lifestyle indicators developed from categorizing and indexing 750 million multi-sourced transactions.

KableKonnnect

The largest publishing database sourced from niche publications. KableKonnnect brings over 6.6 million subscribers from elusive and hard to reach markets.

Business Database Products

Premier Executive Database

The best coverage of industries with the greatest penetration of job titles and functions. It is created entirely from response lists and gives you access to large universes of qualified prospects.

46 million executives from 21 million companies-the SOHO market through mid-sized business to America's major corporations.

Premier Executives-at-Home Addresses

Reach 21 million executives at their home address.

These professionals opted to receive their business mail at home. They are business publication subscribers, trade show attendees, association members, business product and service buyers, and more. Now you have the ability to reach qualified leads when they are relaxed in the comfort of their homes.

Home-Based Business Masterfile

Reach 11 million professionals working at home businesses.

These entrepreneurs rely on direct marketing to keep them connected to the latest news in technology, finance and all the resources necessary to run a successful small business. This is 100% response generated, offering marketers access to the booming SOHO cottage industry.

Contacts in American Business

is the most complete and accurate database of business professionals. The Contacts database combines traditional compiled business data with non-traditional sources to arrive at a comprehensive list of 92 million individual contacts.
